Your Virtual Home

5min Quick Map building new 2D map

Storage, change-over and loading
of any map for cleaning.

Automatically judge the height
will not get stuck under the bed

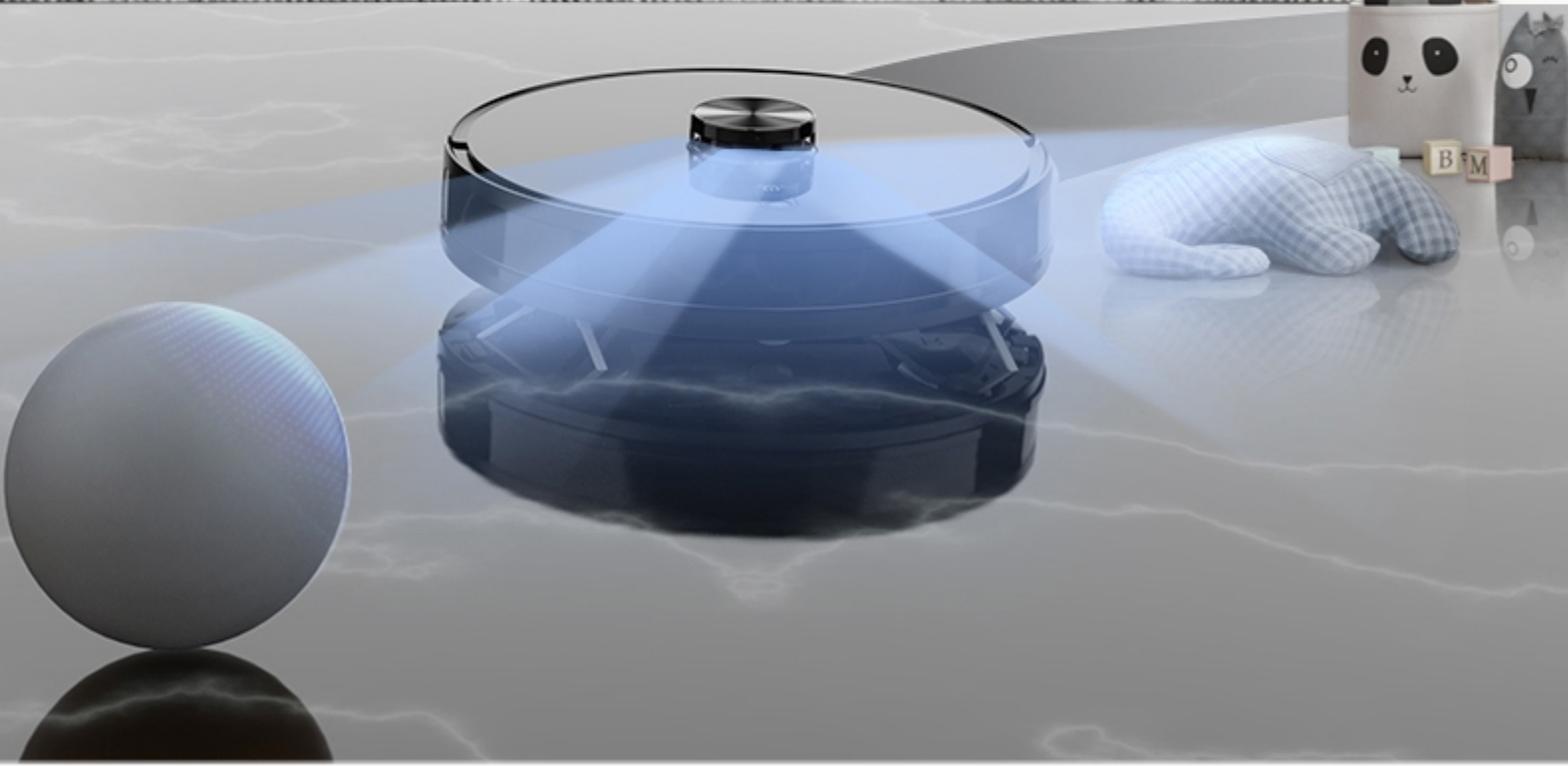

Hi-speed sense environment

Identify

A New Generation Of LDS Laser Navigation Intelligent Obstacle Avoidance

Equipped with the new LDS laser navigation, 360° scans the indoor environment to quickly build the home layout, intelligently plans the cleaning path, and the whole house is cleaned more efficiently

3 Cleaning Mode

Choose from 3 modes via the app-vacuuming, mopping, and all-in-one cleaning-to create the ideal cleaning session. Sweep the carpets, mop the bathroom, or vacuum and mop hard floors.

1. Vacuuming & Mopping Mode

Sweeping and dragging, super clean'

While detects the carpet at work, the water tank will stop spraying water, and the fan will increase the suction to improve the cleaning efficiency of the carpet.

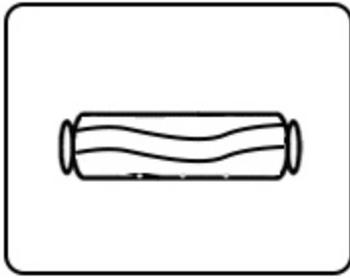

2. Vacuuming Mode

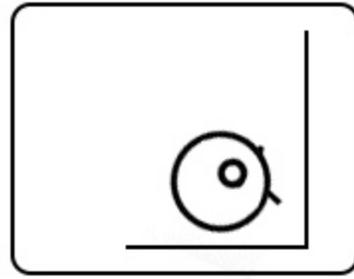

3. Mopping Mode

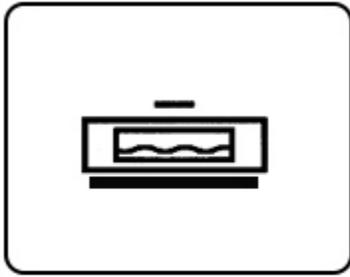

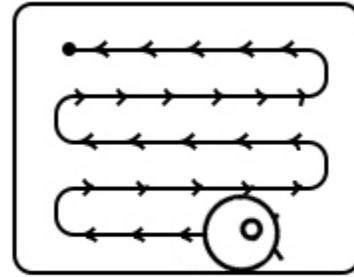

v-type glue
integrated main brush

Along walls,
around corners.

Electric Water Tank

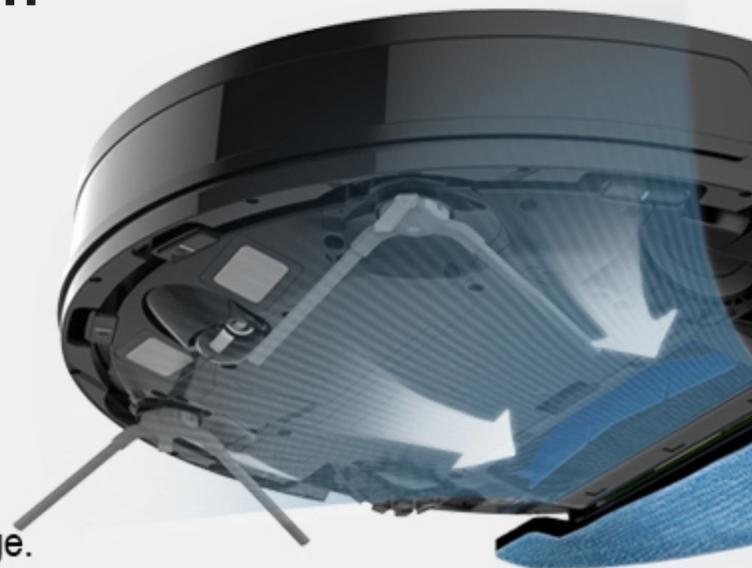

Y Mopping(By APP) Enables

5000Pa super Big Suction

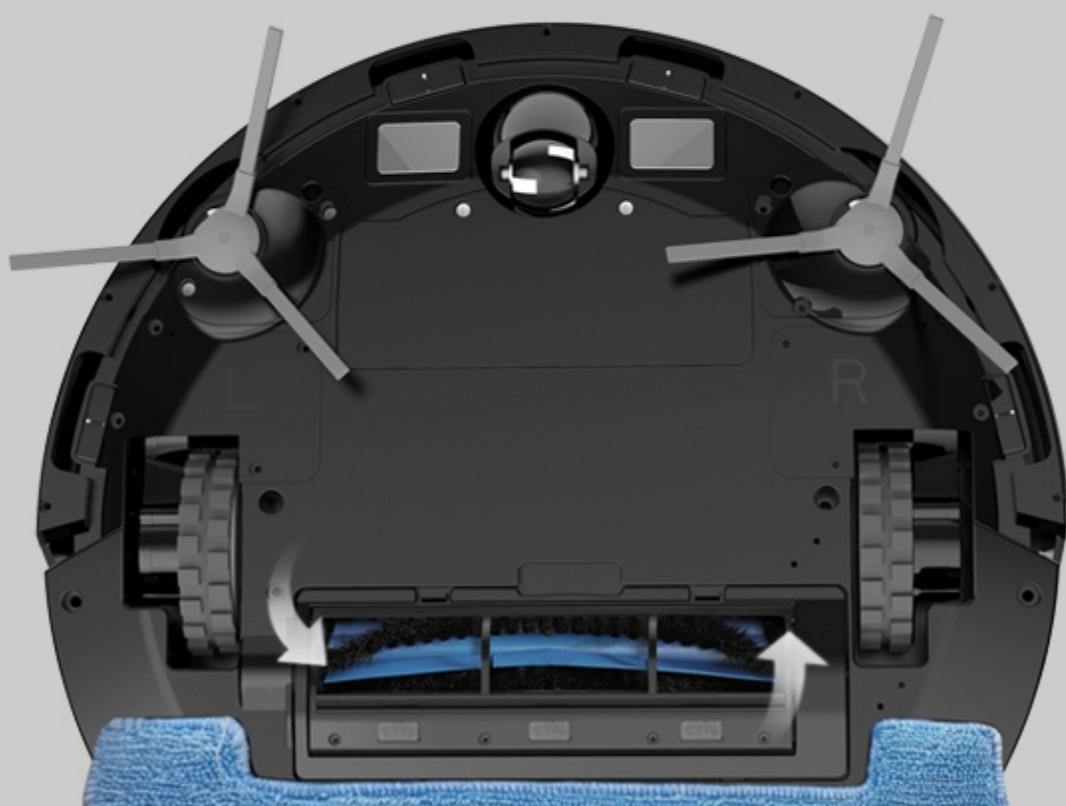

55DB Low Noise

Equipped with a high-performance brushless motor, 3 levels of adjustable suction, bringing a strong suction of up to 5000Pa, with a 171mm long roller brush, it quickly sucks away dust and pet hair in the gap, and easily sucks out daily ground garbage.

Upgraded Floating Brush

A durable rubber brush effectively resists hair tangles. It stays closer to even uneven floors through its multi-plane floating mechanism.

Y-Mopping

The whole scene is constantly cleaned, super worry-free

3 levels of humidity can be adjusted.

Can wipe 10+ stubborn stains

downward pressure wipe
